Tools & Technologies: Git, GitHub, Tailwind CSS, Sass, Chakra UI, Vercel, Hostinger
Web3 & Blockchain: Smart Contracts, EVM Development, Soroban, Web3 Applications
Development Practices: Responsive Design, Cross-Browser Compatibility, Performance Optimization, Accessibility
Soft Skills: Creative Problem Solving, Collaborative Teamwork, Team Coordination, Leadership, Communication

Experience

Front-end Tutor / Front-end development training with Python
MAY 2025 - PRESENT, ONLINE | CANADA

• Mentor aspiring developers through practical training in HTML, CSS, JavaScript and Python.
• Guide students through hands-on projects, code reviews and practical software development workflows.
• Break down technical concepts and help learners progress from fundamentals toward functional applications

Payrous / Blockchain-Powered Payroll Platform
DEC 2024 - APRIL 2025 | NIGERIA

• Contributed to the development of a blockchain-powered platform designed to simplify bulk payment processes.
• Built and integrated frontend functionality supporting transactions

involving native cryptocurrency and ERC20 tokens.
• Worked within a Web3 product environment involving smart-contract-powered payment workflows

Betuptip.com / Football Prediction Platform
NOV 2024 - FEB 2025, LAGOS | NIGERIA

• Developed the Livescore experience for real-time football match updates.
• Integrated dynamic match data into the interface and focused on a smooth user experience.
• Built the page around continuously changing match information and user-facing live data.

Custom Software & Document Management System / Contract Front-end Developer
NOV 2024 - MARCH 2025, UI | NIGERIA

• Contributed to frontend development for a document and task management platform.
• Built intuitive interfaces for tracking employee and lecturer activities and assigned tasks.
• Focused on usability and functionality across the application's workflows.

Cogito / Front-end Developer Intern (Team Lead)
JULY 2024 - AUG 2024 | VERGOLD DIGITAL HUB, IBADAN

• Led a squad of front-end developers in building a confidential in-house web application.
• Coordinated development tasks and collaboration across the team.
• Worked with Next.js and TypeScript while translating technical and business requirements into frontend features.

Doorstep Groceries / Front-end Developer(Assistant Team Lead)
JUNE 2024 - JULY 2024 | DEVCON, IBADAN

• Helped coordinate a multidisciplinary team of designers, frontend developers and backend developers.
• Contributed to the development of an e-commerce platform for an online grocery business.
• Worked with React and JavaScript and supported deployment through Vercel.

Open Source & Ecosystem Contribution

Cognee / Open-Source AI Memory Platform
JUN 2026 - JULY 2026, GERMANY

Contributed through GitHub issues and pull requests, including CLI first-run improvements, deployment documentation, JSON Schema/Pydantic schema graph utilities, and performance-oriented work. Four merged PRs during a contributor campaign plus two

additional contributions after contact from the Cognee team.

Alephium / Open-Source Blockchain Ecosystem
JULY 2026, SWITZERLAND

Contributed to the Alephium frontend ecosystem, including address validation, public key management, wallet transactions, and ALPH UTXO dust-related work.

Stellar / Soroban
JULY 2026, USA

Built StellarBrew-Cheers, a multi-wallet Soroban dApp on Stellar testnet, and StellarBrew-Tiers, a two-contract Soroban loyalty system with cross-contract calls, event streaming, a mobile-first frontend and GitHub Actions CI.

Additional Contributions / Web3 Ecosystems
JUN 2026 - PRESENT, ONLINE

Contributions across Stellar, Solana, Shade Protocol, PACTO Connect, Akkuea, SafeSwap, Fluxora, Open-Audit, Heliosproto, Neko Protocol, Batch-Pay, Uzima and other developer ecosystems.

Technical Training

Cloud Native, AI & Blockchain Development
JUN 2025 - JUL 2026, ONLINE | ONSITE

- Andela × Linux Foundation | Kubernetes / Cloud Native Developer Training (certified)
- Generative AI Mastermind Training (certified)
- Web3Bridge | Blockchain Development Training (alumni)

Education

Osun State University / Physiology
DEC 2019 - SEPT 2023, OSOGBO

Second Class Degree Honors in B.sc Physiology

Language

English - Expert
